

# LEYASSIST

Virtual Assistant for  
Leybold Products

PC Software to control,  
configure & monitor  
Leybold pumps & gauges.

# Software Features: Configure. Measure. Control

LEYASSIST is a PC software for controlling, configuring and monitoring Leybold pumps & gauges. This full featured software facilitates the installation, service and analysis of Leybold products.

## ADDITIONAL FEATURES

- **Parameter List:** Upload/Download parameters to the pump and Read/Write parameters.
- **Error Log:** Read error from the pump and save them to the PC.

## MEASURE

LEYASSIST has a built in trending graph to make analysis on your connected pump or gauge very easy. Configure the graph channels as you need and later export your trended data with the built-in export function.

## CONTROL

LEYASSIST allows you to

- Switch the vacuum components on or off
- Status display of the connected devices
- Activation of standby mode

## COMPATIBLE LEYBOLD

- TURBOVAC i/iX
- TURBOVAC MAG
- GRAPHIX Controller
- DRYVAC
- RUVAC

## ORDERING INFORMATION

System requirements: Processor, Hard Drive Space, Windows 8, 7, USB, Download Page

Part Number 230439V01 - LEYASSIST Software for vacuum pumps

Part Number 230440V01 - LEYASSIST Software for GRAPHIX

Part Number 800110V0103 - Adapter USB / R232
